

EP Racing Oat Free

A high quality oat-free formulation for high performance horses

EquinePro Racing Oat Free is a high-energy blend, specially formulated for high performance horses unable to tolerate oats, horses prone to tying up, and horses requiring additional body condition.

Made from a selection of highly palatable and digestible blend of premium steam-rolled grains and legumes, and a vitamin and mineral balancer pellet designed for athletic horses containing protein meals, omega fatty acids, amino acids, macro minerals, vitamins and trace minerals - including selected chelated minerals, **EquinePro Racing Oat Free** plays a key role in the health and performance of racehorses, and horses in moderate to heavy work.

Years of nutritional research into the requirements of the racehorse has been the basis of **EquinePro Racing Oat Free** - it combines:

- A variety of energy sources to fuel body processes;
- Quality proteins for healthy muscles and tissues;
- Macro and trace minerals, which are important for bone and joint strength, appetite, electrolyte balance, nerve function and skin condition;
- Vitamins which play a role in the release of energy;
- Anti-oxidants to protect cells from damage.

Racing Oat Free is designed to promote optimal health and performance in your elite athletes.

Recommended feeding rates for EquinePro Racing Oat Free are:

	Bodyweight (kg)		
	400	500	600
Horses in light to moderate work	3.0 – 3.5	3.5 – 4.5	4.5 – 6.0
Horses in moderate to heavy work	4.0 – 5.5	5.5 – 6.5	6.5 – 8.0

Feeding suggestions:

- Introduced **EquinePro Racing Oat Free** into the diet slowly over 7 to 14 days
- Feed by weight, not volume

Calculated Analysis (per Kg)¹

Digestible energy:	13.6 MJ
Crude protein:	14.7%
Lysine:	6.4g
Methionine	2.3g
Crude Fibre	9.5%
Fat	2.5%
Salt (added)	1.47%
Starch	40.5%

Calcium:	8.0g
Phosphorus:	6.3g
Magnesium:	2.0g
Potassium:	5.5g
Sodium:	6.4g
Chloride:	10g

Iron:	200mg
Zinc*:	120mg
Copper*:	62mg
Manganese*:	89mg
Iodine:	1.0mg
Cobalt:	0.2mg
Selenium:	0.4mg

*Includes Bioplex® minerals

Vitamin A:	5100IU
Vitamin D:	1176IU
Vitamin E:	167IU
Vitamin K:	2.0mg
Vitamin B1:	16.7mg
Vitamin B2:	7.4mg
Niacin:	15.6mg
Vitamin B6:	15.3mg
Pantothenate:	16.6mg
Vitamin B12:	25.9µg
Folic acid:	5.8mg
Biotin:	0.5mg

**EQUINE
PRO**

EP Racing Oat Free

A high quality oat-free formulation for high performance horses

Feeding suggestions (cont):

- Ensure your horse has access to clean, fresh water at all times
- Feed in conjunction with a minimum of 1% of the horse's bodyweight as roughage
- **EquinePro Racing Oat Free** can be fed in conjunction with other grains in the EquinePro range, but the addition of other vitamins and minerals is NOT recommended, unless under veterinary or nutritional advice
- Feed in two or more equal sized feeds, spaced evenly through the day.

Product Features

Organic Minerals

- Minerals supplied in organic form have been shown to be more available to the animal than inorganic forms.
- **Zinc** is necessary for the health and integrity of hair, skin, hooves, as well as reproduction and the immune system.
- **Copper** is involved in many biological activities; among them are enzyme function, and the development and maintenance of elastic tissues.
- **Manganese** is an important mineral for optimum enzyme function and carbohydrate and fat digestion. It is also important role in one growth and development
- **EquinePro Racing Oat Free** contains organic trace minerals in the form of **Bioplex® Zinc**, **Bioplex® Manganese** and **Bioplex® Copper** from **Alltech®**.

Amino Acids

- Lysine – important for muscle growth and repair, metabolism, a healthy nervous system and proper immune system function. High performance horses, and horses under stress are higher risk of Lysine deficiency. Cereal grains are generally low in Lysine, where as legumes, such as lupins, are good sources of Lysine.

Vitamin E

- An important vitamin involved in many physiological functions including reproduction, immune function, muscle and nerve function. Vitamin E also acts as antioxidant in conjunction with Selenium.

Biotin

- A B-group vitamin that is beneficial for the growth of strong hooves and hair. Biotin is also involved in many enzyme activities in the horse, and in the production of collagen and elastin, which are essential components of healthy skin.

Frankling Custom Feeds (FCF) believes the information contained in this document to be true and correct for the applications as described. Updates may be made to product specifications, usage guidelines, and/or ingredients used in these products. **Customers must seek advice from FCF if there is any doubt regarding the usage of products described.** Subject to those terms implied by statute which cannot be excluded restricted or modified, no warranty of accuracy or reliability is given and no responsibility to the customer or any other person is accepted for errors or omissions howsoever arising, including matters arising through negligence by FCF, it's Directors, employees or agents.
