Salt, Canola Oil & Agriliq Agrimol.

Available in:

- 20kg
- Bulka Bags

A high protein, high energy mixed feed suitable for a range of horses.

EquinePro® Developer is specifically formulated for all your breeding stock, providing a seamless transition into weaning, allowing you to successfully manage rapidly growing youngsters. Made from a selection of steam rolled grains and legumes, oil seeds, pelleted protein meals, vitamins and minerals (including organic minerals), blended with molasses and oil, presenting the horse with a highly palatable feed.

EquinePro® Developer is suited for feeding to a range of horses - Broodmares during pregnancy and lactation, Weanlings and Yearlings in preparation for sale, Rapidly growing horses, including recovery and weight gain and During early stages of their racing career

Feeding:

- Introduce **EquinePro® Developer** into the diet slowly over 7 to 14 days
- Feed by weight, not volume
- Ensure your horse has access to clean, fresh water at all times
- Feed in conjunction with a minimum of 1% of the horse's bodyweight as roughage
- **EquinePro® Developer** can be fed in conjunction with other grains, but the addition of other vitamins and minerals is NOT recommended, unless under veterinary or nutritional advice
- Feed in two or more equal sized feeds, spaced evenly through the day

Bodyweight (KG)

	400kg	500kg	600kg
