A versatile grain and chaff blend suitable for a range of horses.

Horses who are resting, or in light to moderate work will still have specific requirements for high quality protein sources and other nutrients to maintain optimal health. These requirements may be lower than those of a horse in heavy work, but they should not be overlooked.

EquinePro® Kool is a highly palatable blend of steam rolled grains, legumes, oilseeds, lucerne chaff, macro minerals and oil suitable for feeding to a range of horses as part of a complete diet. **EquinePro® Kool** does not contain added vitamins or trace minerals, making it a versatile product, ideal to feed in conjunction with complete feeds if desired.

Designed for horses that are resting, or in light to moderate work, **EquinePro® Kool** is suited for use as a part of a balanced diet to keep your horse healthy.

Feeding:

- Introduce **EquinePro® Kool** into the diet slowly over 7 to 14 days
- Feed by weight, not volume
- Ensure your horse has access to clean, fresh water at all times
- Feed in conjunction with a minimum of 1% of the horse's bodyweight as roughage
- EquinePro® Kool** can be fed in conjunction with other grains, vitamin and mineral supplements
- Feed in two or more equal sized feeds, spaced evenly through the day

	Bodyweight (KG)		
	400kg	500kg	600kg
