## Calculated Analysis

### - As Fed:

Digestible energy:	11.3MJ
Crude protein:	15.8%
Lysine:	0.93
Methionine	0.27
Crude Fibre	7.2%
Fat	7.9%
Salt (added)	1.25%
Starch	25.3%

Calcium:	0.96
Phosphorus:	0.72
Magnesium:	0.32
Potassium:	1.07
Sodium:	0.13
Chloride:	0.84

Iron:	88
Zinc*:	115
Copper*:	45
Manganese:	82
Iodine:	1
Cobalt:	0
Selenium*:	0

\*Includes Bioplex® & Sel-Plex® Minerals

Vitamin A:	6875IU
Vitamin D:	688IU
Vitamin E:	155Mg
Vitamin B1:	5
Vitamin B2:	2
Vitamin B3:	2
Vitamin B6:	2
Pantothenate:	2
Folic Acid:	2
Biotin:	417

## Ingredients:

Steam Rolled Barley, Lupins & Maize. Whole MD Oats & FD Sunflower Seeds. DCP Powder, MHA Methionine, Lysine, Mycosorb A+, EquinePro® Breeder PMX Pellet, Salt, Canola Oil & Agriliq Agrimol.

## Available in:

- 20kg
- Bulka Bags

## A high quality mixed feed for mares, foals and weanlings

**EquinePro® Stud** is the result of years of research into the nutritional requirements of breeding stock. **EquinePro® Stud** is a palatable blend of premium grains, protein meals and a high quality amino acid, mineral, trace mineral (including organic minerals) and vitamin balancer pellet for optimal nutrition of mares, foals and weanlings.

New research strongly supports the influence of the nutritional status of the mare on her future offspring. These attest research findings have formed the basis of the formulation of **EquinePro® Stud**, which is designed to promote optimal broodmare health and nutritional support of the neonatal foal, as well as promoting optimal skeletal and muscular development of the young growing foal.

The **EquinePro® Stud** formulation has been scientifically balanced against typical Australian pastures and roughage sources promoting optimal nutrient supply when offered at recommend feeding rates.

**EquinePro® Stud** is suited for feeding to a range of horses including the following:

- Broodmares during pregnancy and lactation
- Weanlings and Yearlings

## Feeding:

- Introduce **EquinePro® Stud** into the diet slowly over 7 to 14 days
- Feed by weight, not volume
- Ensure your horse has access to clean, fresh water at all times
- Plus 1-2kg lucerne chaff and free access to additional roughage as hay/pasture

## EquinePro® Stud kg

Dry and Early Pregnant Mares	2
Late Pregnant Mares	3
Lactating Mares	4-6
Weanlings	2-4
Resting - Light Work Horses	1.5-3

With over 30 years experience in the Grain Industry, **EquinePro®** has an established history of providing quality products with superior service.

Our dedicated Equine manufacturing site has specialised in manufacturing equine feeds since 2004.

All of our sites are accredited under FeedSafe® - The quality assurance program of the SFMCA. This ensures all products are of the highest quality and standard.
